1. Overview:

HD3403J3C is a 2.5" & 3.5" four bay SATA HDD enclosure supporting USB 3.0 and SATA dual interfaces. HD3403J3C designed by rigid cool, elegant aluminum case, 4 easy installed and sturdy HDD trays that are truly hot swappable plug & play anytime. Each tray is equipped with status LED that turns itself on in blue or red for correct functioning or error status. The equipped 8cm smart fan turns itself on/off, slow/fast against temperature status for the sake of good ventilation as well as quiet concern in mind. With sufficient power provided, up to 4 drives of total **32TB** can be installed to the case. Each HDD operates individually by means of port multiplier feature. With USB 3.0 connection, it speeds up to 5Gbps and 6Gbps through eSATA interfaces. This is definitely a perfect HDD drawer solution fulfilling those with more than 1 HDDs and needing a place to store & use them.
